Experience Level: Lead

Skills

Wireless Technologies - Public Administration - Telecommunications Systems
Network Administration - Healthcare Administration - Network Security

Professional Experience

Junior Healthcare IT Specialist
We need a full-stack developer to build a responsive web application from scratch. The project includes frontend with React, backend with Node.js, and MongoDB database. Experience with REST APIs and cloud deployment required.

Professional Summary

Having designed user interfaces for SaaS platforms, I can create the clean, functional design your web application needs to stand out in the market.
